EXAMINER'S REASONS FOR ALLOWANCE

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: One reason for allowance is that the apparatus of claims 1 and 18 inter alia define over Schey (4,400,965) by specifying a second lower die is operable to form a flat portion on the protrusion without the first lower die. Schey's requires the second lower die 34 to operate in conjunction with the first lower die 27 to produce the flat portion 52, 43 (Figures 5 and 6) on the protrusion. Kondo (4,245,491) requires that a first and second lower die, defined by die 1, cooperate with the upper die 4 to produce the flat portion on the metal board 8, 9. The method of manufacturing the liquid ejection head of claim 33 defines inter alia over the reference to Usui (6,499,836) by forming of the metal board by a combined plastic working of the metal board to form a recess in a first face of the metal board and punching a through hole communicating with the recess and a second face of the metal board. Usui teaches a combined plastic working of the metal board (Figures 6A-6D) and laser machining a through hole 31 (Figure 6E).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
